**REGULAR MEETING**

**COMMUNICATIONS FROM THE MAYOR**

**Resolution: Authorizing Submission of a Statement of Interest to the Massachusetts School Building Authority**

Having convened in an open meeting on April 14, 2022, prior to the SOI submission closing date, the **City Council of the City of Salem, Massachusetts**, in accordance with its charter, by-laws, and ordinances, has voted to authorize the Superintendent to submit to the Massachusetts School Building Authority the Statement of Interest Form dated **April 2022** for the **Salem High School** located at **77 Willson Street, Salem, Massachusetts**, which describes and explains the following deficiencies and the priority categories for which an application may be submitted to the Massachusetts School Building Authority in the future:

*Priority 1. Replacement or renovation of a building in a condition seriously jeopardizing the health and safety of school children. A significant portion of the building's heating and ventilation system components have either failed, exceeded their useful life, and/or are predicted to fail imminently. In addition, the building contains significant amounts of asbestos. As the building ages and requires more repair and maintenance, the likelihood of damage to asbestos containing materials and the release of asbestos into the school environment is expected to increase.*

*Priority 5. Replacement, renovation, or modernization of school facility systems, such as roofs, windows, boilers, heating and ventilation systems, to increase energy conservation and decrease energy related costs. As noted above, a significant portion of the building's systems (including roofs, windows, boilers, and HVAC systems) have exceeded their useful life. In addition, automated building control systems no longer function properly requiring frequent manual adjustment of mechanical equipment, significantly impeding our ability to manage and control energy use.*

*Priority 7. Replacement of or addition to obsolete buildings in order to provide for a full range of programs consistent with state and approved local requirements. Over 50% of Salem High School students are currently enrolled in CVTE classes. The demand for programs that are relevant to our community, region, and state employers is growing tremendously. Unfortunately, the building as presently designed and equipped is unable to support the expansion of programs that would meet state requirements for CVTE certification. In addition, the constraints of the building prevent the district from providing a full range of programs in the fine and performing arts, and in the science, technology and engineering areas;*

and hereby further specifically acknowledges that by submitting this Statement of Interest Form, the Massachusetts School Building Authority in no way guarantees the acceptance or the approval of an application, the awarding of a grant or any other funding commitment from the Massachusetts School Building Authority, or commits the **City of Salem, Massachusetts** to filing an application for funding with the Massachusetts School Building Authority.

The following communication from the Planning Board relative to Visibility at Intersections

**Report of the Planning Board to City Council Re: Visibility at Intersections**

April 1, 2022

At its meeting on March 31, 2022, the Planning Board discussed a proposed amendment to the Zoning Ordinance to amend Section 6.8 to increase the distance from an intersection wherein all structures must be 3 feet or shorter from 25 feet to 35 feet, which was referred from the March 15, 2022, joint public hearing with the City Council.

The Planning Board voted one (1) in favor (Tom Furey) and seven (Bill Griset, Helen Sides, Sarah Tarbet, Todd Waller, Carole Hamilton, Kirt Rieder, Zach Caunter) opposed to recommend that the City Council adopt the proposed amendment to the Zoning Ordinance, with the following comments:

- The amendment should conform with existing language in the Salem Code of Ordinances, Chapter 4 (particularly where political signs are concerned);
- The amendment should be compatible with Section 8.2.6.1. (Entrance Corridor Overlay District, Fences);
- The amendment should provide clarity on the line of measurement from where height is measured;
- The amendment should, if used, provide clarity on the definition of “intersection street lines” -
  - o Clarify that the distance is not measured from the centerline of the road;
  - o Consider if this is intended to be measured from the face of curb;
- The Planning Board would like clarification as to what obstructions Council seeks to manage with this ordinance.
